Center for Parallel and Distributed Computing
Curriculum Development and Educational Resources

Grant and Training Program for Parallel and Distributed Computing Curriculum Adopters

August 10-14, 2020

Application Deadline: July 6, 2020

- See how to integrate PDC into introductory classes and to evaluate experimental pedagogical approaches for publication
- Learn about PDC from experts
- Network with other instructors
- Gain insights for incorporating PDC into your courses, to meet the needs of your students
- Become a leader in preparing students for careers that require concurrency as a fundamental aspect of computational thinking
- Get special opportunities to publish findings from your work, and attend major conferences

Online, via UMass, Amherst

Where?

\$4250 grant upon completing training,
with commitment to implement and evaluate
course enhancement, for publication

What?

Instructors teaching introductory
computing courses at colleges
and universities in the US

Who?
